Strybing Bequest-
Investment of
in War Bonds:

The Secretary reported that he had received the following opinion from the City Attorney regarding the investment of the Strybing Bequest fund in war bonds:

Opinion:

" OPINION OF CITY ATTORNEY

"

January 7, 1943

" SUBJECT: In re, Investment of Strybing Funds.

"Dear Sirs:

" You have asked me whether or not your Board has the authority to invest certain funds which are lying idle in the Treasury and which were received under the bequest from the Estate of Helene Strybing.

" An investigation of the law and of the Decree of Distribution in the Strybing Estate shows that certain funds were directed to be paid to the Board of Park Commissioners for 'the laying out, arrangement, establishment and completion of an arboretum and botanical gardens in Golden Gate Park'. There are certain other conditions going with the bequest which are not of any importance to this inquiry and they are not therefore referred to.

" I understand that at the present time it is impossible for your Board to proceed with the construction of the arboretum by reason of the lack of priorities to obtain the necessary materials and the difficulty in obtaining employees competent to do the work. You ask if it will be permissible for your Board to invest these funds in bonds of the United States pending the time when you can proceed to carry out the purposes of the trust.

"

OPINION

" In this case the Board of Park Commissioners are the trustees of the public generally for the purposes of carrying out the conditions in the bequest made by Mrs. Strybing. The general rule of law is that a trustee is held to the same accountability for trust funds under his control as is a prudent business man. Undoubtedly, a prudent business man who had a considerable amount of money which he was at the moment unable to use would invest it in some securities which would produce some return upon his money.

" I believe the obligation rests upon the Board of Park Commissioners to recommend the investment of these idle funds of the Strybing Estate. This belief is upheld by the provisions of Section 2261 of the Civil Code which provide as follows:

' A trustee must invest money received by him under the trust as fast as he collects a sufficient amount, in such manner as to offer reasonable security and interest for the same.'

" In the case of GAVER v. EARLY, 58 Cal.App. 736, the court held:

' A violation by a trustee of a duty which equity lays upon him, whether wilful and fraudulent or done through negligence, or arising through mere oversight or forgetfulness, is a breach of trust, and he may be charged with rents, profits, interest, income, proceeds of sales, and the like, which he never in fact received, but which he might and should have received by the exercise of due and reasonable care, diligence, and prudence in his modes of dealing.'

" I also direct your attention to Section 82 of the Charter which provides:

' Funds received by donation, bequest or legacy for a specific purpose and held in trust for the benefit of the city and county may, with the approval of the controller, be invested by the officer, board or commission charged with control and administration of such trust or funds in securities legal for savings banks.'

CHAPTER I

The first part of the book is devoted to a general survey of the subject. It begins with a definition of the term "philosophy" and then proceeds to a discussion of the various branches of the subject. The author then discusses the history of philosophy and the different schools of thought that have developed over the centuries.

The second part of the book is devoted to a more detailed examination of the various branches of philosophy. It begins with a discussion of metaphysics and then proceeds to a discussion of epistemology, ethics, and politics. The author then discusses the history of philosophy and the different schools of thought that have developed over the centuries.

The third part of the book is devoted to a more detailed examination of the various branches of philosophy. It begins with a discussion of metaphysics and then proceeds to a discussion of epistemology, ethics, and politics. The author then discusses the history of philosophy and the different schools of thought that have developed over the centuries.

The fourth part of the book is devoted to a more detailed examination of the various branches of philosophy. It begins with a discussion of metaphysics and then proceeds to a discussion of epistemology, ethics, and politics. The author then discusses the history of philosophy and the different schools of thought that have developed over the centuries.

The fifth part of the book is devoted to a more detailed examination of the various branches of philosophy. It begins with a discussion of metaphysics and then proceeds to a discussion of epistemology, ethics, and politics. The author then discusses the history of philosophy and the different schools of thought that have developed over the centuries.

" Bonds of the United States are legal investment for savings banks and therefore it would be perfectly proper for your Board to invest these idle funds in securities of this character. In accordance with the provisions of the Charter, the approval of the Controller should be received before making the investment.

" Very truly yours,

" (Sgd) JNO. J. O'TOOLE
CITY ATTORNEY "

road leading to Ingleside Police Station from San Jose and Ocean Avenues through Balboa Park is in very poor condition. Assistant Superintendent Julius Girod reported that he had inspected this particular property and it is his opinion that it would be of little use to recondition the road until certain trees are removed. He was instructed to prepare a report for the Commission indicating more thoroughly the situation on this road regarding the trees. The matter of reconditioning the road was referred to Commissioner Lermen and the Assistant Superintendent for investigation.

Request by U.S.
Army that Fence
be Placed Across
Certain Portion:

The Secretary read a communication from C. Lyn Fox, Lt. Col. G.S.C., Director, Supply and Transportation Division, Fort Mason, requesting that a fence be placed across the north and south ends of the area between the lagoon and the Palace of Fine Arts. Commissioner Lermen stated that he had inspected the property with Commissioner Budde, and had made a written report, of which the following is a copy:

Commissioner Ler- "
men's Report:

January 4, 1943

"Board of Park Commissioners,
 "Park Lodge,
 "Golden Gate Park,
 "San Francisco, Californic.

"Gentlemen:

" Accompanied by Commissioner Budde, I met on Saturday, December 19, 1942, at the Palace of Fine Arts, Major Workman and Major Baldwin. They explained to us that men working for the Government,

and in connection with the war effort, were compelled to park their cars in the City streets adjacent to the Palace of Fine Arts; that a number of the men had been cited by the San Francisco police for parking contrary to regulations; that, for that reason, they desired to fence off the area between the Palace of Fine Arts Building and the lagoon to the East, to serve as a parking area for the cars of these war workers.

" We asked Major Workman to cause a letter to be written to this Commission, applying for the use of this space and for the purposes for which it would be used. Such a letter has been received by the Commission, and it is our recommendation that the application be granted.

"
"

(Sgd) JOHN J. LERME
Park Commissioner

"

On motion of Commissioner Budde, seconded by Commissioner Sandy, Commissioner Lermen's recommendation was unanimously approved.

City Atty's Opinion
re Sutro Heights:

The Secretary next informed the Board that he had received an opinion from the City Attorney to the effect that the granting of a permit to the United States Government by the Park Commission to use portions of Sutro Heights for the duration of the war would not be in violation of the provisions of the Deed of Gift by which the property was acquired by the City. The Secretary then informed the Board that he had
 received a "release" form from the War Department
 discharging the War Department from any damage to
 Fleishhacker Bathhouse and Playfield that may have been
 occasioned by its occupancy of these properties. It was
 the concensus of opinion of the Board that the release
 should not be signed until the War Department has com-
 plied with the terms of the lease, and placed the
 property in the condition in which it was leased.

Fleish. Pool-
 Request for

Mr. Joseph R. Hickey, Director, Recreational Activi-

the resumption of operation of Fleishhacker Swimming Pool. After considerable discussion it was decided that immediate action should be taken to establish a policy for the ensuing year. Mr. Hickey further stated that a very dangerous condition exists at the present time and that a watchman should be stationed to guard the pool and enforce the "no swimming" policy now in effect. On motion of Commissioner Lermen, seconded by Commissioner Sandy, and unanimously carried, Mr. Hickey was instructed to secure additional watchmen.

(Series of 1939)
re Rehabilitation of Structure:

The Secretary next presented the following Resolution No. 3105 (Series of 1939) passed by the Board of Supervisors on January 4, 1943, petitioning the Board of Park Commissioners to give consideration to the rehabilitation of structure at Mountain Lake Park:

RESOLUTION NO. 3105
(Series of 1939)

" WHEREAS, There is maintained in Golden Gate Park, close to Eighth Avenue, a place known as Mountain Lake Park, where facilities are provided, as part of the recreation program, for non-gambling card games; and

" WHEREAS, This feature of the Park's recreation program attracts many people each day; and

" WHEREAS, The structure in which this game is conducted has a roof which consists of lights of glass, which roof is in such a state of disrepair as to permit the rain to enter the premises, thus, on inclement days, making it impossible to play; and

"Absent: Supervisor Gallagher

"I hereby certify that the foregoing resolution was
adopted by the Board of Supervisors of the City and
County of San Francisco.

" DAVID A. BARRY,
Clerk "

It was the consensus of opinion of the Board that it
was unfortunate that the members of the Board of
Supervisors had not conferred with them before passing
the resolution, as the Assistant Superintendent and
Commissioner Lermen had recently inspected this
property and found that the building is in service-
able condition.

Sutro Heights-
Rivera-Palou
Cross:

Commissioner Budde reported that he had read the
article by Father Zepherin Engelhardt, noted Franciscan
historian, as well as other supporting documents on
early California history regarding the Rivera-Palou
Cross, and that he concurred with Commissioner Lermen
that the authentic site of the cross is Point Lobos.
On motion of Commissioner Sandy, seconded by Commis-
sioner Lermen, and unanimously carried, the Board again
went on record that the proper location for the erection
of the cross is Point Lobos and not Sutro Heights.

Union Square -
Fidelia Jewett
Bench:

Commissioner John J. Lermen stated that he had
contacted Mrs. Mary Jane Cameron, of the Marina Junior
High School, and discussed the possibility of placing
the Fidelia Jewett bench in another location, and that
he was sure that the site to be selected would be

satisfactory to all parties concerned.

Aquatic Park -
Specifications
re Temporary
Groin:

Commissioner Lermen requested that his report on the plans and specifications for temporary groins at Aquatic Park be put over until the next meeting due to the illness of Mr. John Galloway.

Sutro Heights -
Removal of
Trees: (Commis-
sioner Lermen's
Report)

The Secretary then read the following report prepared by Commissioner Lermen:

"

January 4, 1942

"Park Commission
"Park Lodge,
"Golden Gate Park
"San Francisco, Calif.

"Gentlemen:

" On this day, January 4, 1943, with Secretary Langdon, I met at Sutro Heights, Mr. Dunn, Colonel La Frantz and Colonel Burr. We marked some of the trees that were to be entirely removed or topped, to afford sufficient vistas for the fire control station. Subsequently, Mr. Langdon and I met at the Beach Chalet, Colonel Hawkins, in charge of the installation and operation of a listening post near the Chalet and the occupation of the Chalet building by the operators. Shortly thereafter, we were joined by Colonel La Frantz and Colonel Burr. We marked off the line in the football field where a fence might be constructed to keep the public away from the listening appliances at the north end of the field.

Beach Chalet-
Inspection of
by Commissioner
Lermen:

" We learned from Colonel Hawkins and his associates what use they intended to make of the Beach Chalet, namely, the upper portion of the Chalet is to be used as a sleeping room for the operators, and the lower portion, or the first floor, as a living or lounge room.

" We stressed with these officers, the use of the greatest of care to prevent any defacing or scratching or otherwise injuring the murals on the first floor of the Chalet. The upper portion of the Chalet, namely, the southerly end, will be walled off, behind which may be stored the furniture in the building which belongs to the Commission. The kitchen, likewise, is not to be used and is to be blocked off.

" Colonel Hawkins and Colonel La Frantz promised to put the building in good condition and maintain it in good condition, and invited us to come back in another two weeks to inspect the premises. In due time we will be advised by the engineering department what sort of a lease, if any, they recommend, after which the

engineering department will prepare the form of lease, if any, and submit the same to the Commission. At that time, our Secretary, or some other representative of the Commission, will be expected to make an inventory of the personal property in the building and a statement of the condition of the premises, to be submitted to the engineering department.

Yours very truly,

(Sgd) J. J. LERSEN

"

On motion of Commissioner Sandy, seconded by Commissioner Budde, and unanimously carried, Commissioner Lermen's report was approved and ordered incorporated in the minutes.

Children's Qtrs
Merry-Go-Round-
Possible Pur-
chase of:

Commissioner Sandy reported that he had been informed that Mr. George K. Whitney, operator and owner of the Merry-Go-Round at the Children's Quarters, Golden Gate Park, is willing to sell this equipment. It was the concensus of opinion of the Board that if surplus monies could be transferred for the purchase of this equipment it would be advisable to purchase it immediately. The Secretary was instructed to obtain an option for its purchase and to take the necessary steps to effect the transfer of surplus funds into an account for the purchase of the Merry-Go-Round.

Sharp Park -
Policy as to
Operation of:

Commissioner Sandy then requested that the policy of operating Sharp Park be put over until the next meeting of the Board, for further study. So ordered.

sence -
Frank Altieri,
W106 Rides
Attendant:

The request of Frank A. Altieri, W106 Rides Attendant, for a military leave of absence for service in the United States Army was next approved, effective December 28, 1942, in accordance with the ordinance governing military leaves for city employees, providing one month with pay and the balance without pay for the duration.

Drifting Sand-
Master Plan:

Mr. Julius L. Girod, Assistant Superintendent, reported that both he and President Fleishhacker had conferred with Mr. J. Deming Tilton, of the City Planning Commission, regarding the "Master Plan" of park beaches, and that Mr. Tilton felt that the plan would be completed and ready for submission to the Park Commission at its next meeting.

Golden Gate Park-
Victory Gardens:

Mr. Girod further reported that he had received 765 applications for plots for Victory Gardens and that there are only 250 plots available at the present time. The plots are to be assigned to the first 250 persons who applied. Mr. Girod also reported that in accordance with the request of the Board he was preparing a set of rules and regulations for the guidance of those persons using plots in the Park for Victory Gardens, but deemed it necessary to consult with other Park Departments throughout the United States which had already pioneered such projects, and expected answers within the next few days.

Alamo & Alta
Plaza Squares-
Call for Bids
for Installa-
tion of Agricul-
tural Drain

Mr. Girod then reported that plans and specifications for the installation of Agricultural Drain Tile at Alamo and Alta Plaza Squares had been completed by the Engineering Department, and requested that the Board instruct the Secretary to call for formal bids. So ordered.

Tile:Children's Quar-
ters-Remodeling

re Decoration of
Rotunda, City
Hall:

Mr. Eneas J. Kane, Secretary to the Mayor, appeared before the Board and in the name of His Honor, Angelo J. Rossi, commended the Park Department for the efficient and beautiful decoration of the rotunda of the City Hall for the official rites for John McLaren, late Superintendent of Parks.

Funeral Procession
thru G.G.
Park for John
McLaren, deceased:

Mr. Kane further stated that the Mayor suggested a revision of the funeral procession whereby Mr. McLaren's last trip through the Park would pass the beautiful dells and glens that he had created. It was the concensus of opinion of the Board that the Mayor's suggestion be carried out. So ordered.

Mayor Rossi's
Eulogy for
John McLaren,
deceased:

On motion of Commissioner Lermen, seconded by Commissioner Sandy, and unanimously carried, the Secretary was instructed to incorporate in the minutes the eulogy given by Mayor Angelo J. Rossi for John McLaren on January 14, 1943:

" January 14, 1943

" Mayor's Eulogy to John McLaren - Rotunda,
" City Hall 12 Noon

"My friends:

" Today the heart of San Francisco is torn with grief. Her first citizen has answered the call of his Creator. No longer will she hear the voice of the sturdy, sun-tanned Scotsman who dedicated his life to making her the lovely lady that she is.

" Yes, this city has lost its No. 1 citizen.

" Though he has been called to his heavenly home, we shall ever retain the memory of his long and useful life. He will ever be present with us through the living monuments he has left behind. Every park in this City is the fruit of his handiwork.

" Yet I am sure he would feel that our public recognition of his life and works and the honor we so sincerely pay him, as he lies here before us, were far and away beyond his merits. This I say because the outstanding characteristic of John McLaren was his native modesty.

" I am sure, however, that he would be pleased with some mention of the work he wrought on the face of Nature in his crowning glory - Golden Gate Park. Here is the world's most striking example of an enchanting woodland wrested from one thousand acres of drifting sand.

" I think he would like me to remember what he told me many times as we were looking at hundreds of majestic eucalypti along El Camino Real near San Mateo, as well as many other varieties of trees in and about our beloved city. 'Son', he said, 'I've lived to plant over a million trees. When I hear that one is cut down, I feel I have lost a friend.'

" One of his most frequent and impressive injunctions to the children, hundreds of thousands of whom he addressed in his six decades of city service was, 'Never cut down a tree'.

" His motto was: 'Always work with nature, never against it. Never interfere with the beauty the Creator has given us'.

" Truly he was a man who communed with nature - one to whom God seemed to have divulged many of the mysteries of the soil and its beauty.

" He contributed more than any other person to the beautification of a city renowned for its loveliness. He was of the old school of floriculturists -- men and women to whom plants and flowers were living, breathing things to be cared for and nurtured as a mother would her child.

" San Franciscans, as long as this City shall endure, need but look about them to bring John McLaren vividly before their eyes. What a sweet life he was permitted to enjoy on this turbulent earth. It is true that he had to endure sorrow and suffering of unusual gravity, but always there was the cultural satisfaction of his communion with Nature to lessen his sufferings. Surely this rare soul had seen every phase of life's gifts and its trials.

" If ever San Francisco knew an adopted son who was ready to receive Heavenly blessing for his earthly services, it was the man whose sojourn of nearly a century along life's pathway we note with pride today.

" Thank God for a man like John McLaren.

" Thank God for having prolonged his life,

" Truly a blessing to the City of St. Francis.

" Thank God that in His supreme wisdom He directed the footsteps of His humble servant to California and to San Francisco - where his name will forever be held in precious memory.

" The great English writer, Dickens, in speaking of the passing of Little Nell, had her voice the following expression: 'When I die put me near something that loves the light, and had the sky above it always'.

" John McLaren has brought to us the flowers and trees that love the light and have the sky above them always. They have brought joy to the heart of children, of blooming youth, and faltering age. Those who through future years will live to love and enjoy them will bless the name and memory of John McLaren.

" And now, Uncle John, shortly it will be my privilege as Mayor of the City of St. Francis, and as your personal friend for over half a century, along with a multitude of your admiring friends, to accompany you to your final resting place.

" We shall take you for your last visit midst the trees and flowers you loved so much. I am sure that as we pass through this arbor of beauty, the birds singing a requiem, every tree, every blade of grass, and every lovely flower bow in deep thanksgiving to you in death for having given them life.

" They, in truth, will be joining a grateful people of a grief-stricken city in bidding you a loving farewell. "

" Re: Jewett Memorial Bench.

" Friday morning I had a conversation with Dr. Martin with reference to the above matter, and she has authorized me to say to you that she has given further consideration to the place for re-installing the above memorial bench and has concluded from the fact that Miss Jewett herself, as well as Dr. Martin and many of Miss Jewett's old friends and former pupils, had a fondness for the particular area in front of the de Young Museum and pool in front of the place, that this spot would be a suitable and desirable place on which to re-erect the memorial.

" Dr. Martin states that in order to get the full benefit of the two-sided bench, it might be considered desirable to divide it so each part might be placed to the best advantage on different edges of the pool. The exact spot on which these parts of the bench should be placed will, of course, be a matter for the Park Authorities to determine, but when the time comes for that I am sure Dr. Martin would appreciate being consulted, if this is agreeable to you.

" Thanking you for your consideration in the matter, and expressing my pleasure of a solution of the problem which seems to be satisfactory to both yourself and Dr. Martin, as ever,

" Most sincerely yours,

" (Sgd) RANDOLPH V. WHITTING "

Service: Res. #738:

Commissioner Lermen introduced the following resolution to the Board, and on motion of Commissioner Sandy, duly seconded and carried, Resolution No. 738 was adopted and ordered incorporated in the minute records:

Res. No. 738

RESOLUTION NO. 738

WHEREAS, heretofore and on the 15th day of February, 1943, and in accordance with the provisions of Section 69 of the Charter of the City and County of San Francisco, this Commission did file with the Controller of said City and County of San Francisco, for check as to form and completeness, two copies of the budget estimate for the said Park Department, and as approved by this Commission;

AND WHEREAS, and in accordance with Section 70 of said City Charter, subparagraph 4 thereof, a schedule of positions and compensations was included in such budget, showing all increases or decreases requested in the number of position and/or rates of pay;

AND WHEREAS, this Commission has been advised by the Civil Service Commission of the City and County of San Francisco, that it is in receipt of a certain report listing a schedule of positions under the control of this Commission and compensations showing certain increases and/or decreases in the number of said positions and rates of pay, in many cases differing from the schedule of such positions and compensations heretofore included in the budget of this Commission submitted or filed as above stated on the 15th day of February, 1943;

AND WHEREAS, this Commission is fully convinced that the changes made or suggested in said schedule so presented to the said Civil Service Commission are not justified and cannot be justified by a due and thoughtful consideration of the duties and responsibilities of the various positions where the

The first of these was the Declaration of Independence, which was adopted by the Continental Congress on July 4, 1776. This document declared the thirteen colonies to be free and independent states, no longer under British rule. The second was the Constitution, which was adopted by the delegates to the Constitutional Convention on September 17, 1787. This document established the framework for the federal government and the relationship between the states and the federal government. The third was the Bill of Rights, which was adopted by the first Congress on September 12, 1789. This document guaranteed the basic rights of the citizens, such as freedom of speech, religion, and the press.

THE CONSTITUTION

The Constitution is the supreme law of the United States. It is the foundation of the federal government and the relationship between the states and the federal government. The Constitution is divided into seven articles. The first three articles establish the three branches of the federal government: the legislative branch, the executive branch, and the judicial branch. The last four articles establish the relationship between the states and the federal government, and the rights of the citizens.

The first article of the Constitution establishes the legislative branch of the federal government, the United States Congress. The Congress is composed of two chambers: the House of Representatives and the Senate. The House of Representatives is composed of members elected by the people of each state. The Senate is composed of two members elected by the people of each state.

The second article of the Constitution establishes the executive branch of the federal government, the President of the United States. The President is elected by the people of each state. The President is the commander in chief of the armed forces and has the power to grant pardons and reprieves. The President also has the power to make treaties with foreign nations and to appoint and remove federal judges.

The third article of the Constitution establishes the judicial branch of the federal government, the Supreme Court of the United States. The Supreme Court is composed of one Chief Justice and eight Associate Justices. The Justices are appointed by the President and confirmed by the Senate. The Supreme Court has the power to interpret the Constitution and to review the actions of the other branches of the federal government.

compensations have been respectively increased or decreased above or below the amounts submitted by this Commission in its said budget,

NOW, THEREFORE, BE IT RESOLVED: That this Commission respectfully suggests and requests of said Civil Service Commission a hearing before such Civil Service Commission, at which time this Commission should be given an opportunity to present to such Civil Service Commission, fully and fairly, the reasons why the compensations allotted to each of the positions covered by this Commission's proposed budget should not be changed or altered in any respect.

RESOLVED, further, that a copy of this resolution, certified by the Secretary of this Commission, be forthwith presented to said Civil Service Commission as a protest against the adoption of any schedule of compensations in any way changing or differing from the schedule contained in this Commission's said budget.

Rules and Regulations for Victory Gardens:

At the request of the Superintendent, Julius L. Girod, the adoption of the revised rules and regulations pertaining to victory gardens was put over until the next meeting of the Board.

Sharp Park - U.S. Engineers Request to make 3" Pipe Connection to Water System:

The Superintendent reported that he had made a thorough investigation of the water system at Sharp Park and that in his opinion if the request of the United States Engineers to install a 3" pipe connection to our water system were granted the requirements of the Park Department would be impaired. He therefore recommended that the request be denied. On motion of Commissioner Lermen, seconded by Commissioner Sandy, and unanimously carried, it was so ordered.

Drifting Sand - Master Plan:

The Superintendent then reported that the drifting sand master plan had not been completed, and requested that the matter be put over until the next meeting. President Fleishhacker stated that he is planning a buffet luncheon at McLaren Lodge on Friday, March 5, 1943, for the Mayor, the members of the State Board of Park Commissioners and the members of the San Francisco Park Commission, at which time the beach problems confronting the Commission can be discussed. The Superintendent was instructed to make arrangements to take the members of the State Park Commission on a tour of inspection of the various beaches in San Francisco.

S.F. Zoo-Proposed
Storage Space
for Food for
Animals:

The Superintendent further reported that he thought it advisable to convert one of the rooms in the Zoological Gardens Stable into a storage room for meat. In order to carry out this plan the installation of a freezing unit would be required. He was rather doubtful that the Park Department would be able to obtain a high enough priority rating to purchase this type of equipment, but he had been advised that second-hand equipment would be available. On motion of Commissioner Lermen, seconded by Commissioner Sandy, the Superintendent was instructed to prepare a complete report for the next meeting.

S.F. Zoo-Added
Protection Around
Elephant Moat:

The Superintendent next reported that something should be done about the condition of the moat in front of the elephant house, as several of the elephants had fallen into it. After considerable discussion the Superintendent was instructed to install heavy 4" chain links, already in the possession of the Park Department, immediately between the stalls and the moat.

G. G. Park Tea
Garden -
Removal of
Temple:

It was regularly moved and seconded that the Superintendent be authorized to obtain informal bids for the moving of the temple in the Golden Gate Park Tea Garden to a new location, to be determined by Commissioner Lermen.

S.F. Zoo-
Horse Meat
Shortage:

President Fleishhacker reported that he had requested Messrs. Ellars and Langdon to make a detailed investigation of the possibility of a shortage of horse meat for feeding animals at the Zoo, and advised the Board that their findings indicated that this situation was not as serious as originally feared. He thereupon requested the Secretary to report the findings to the

Board. The Secretary stated that Mr. W. C. Hubner, Purchaser of Supplies, disclosed that the contract for the purchase of horse meat, for the calendar year of 1943, contains a proviso that the vendor may reopen the contract for substitution of a higher price if market conditions so warrant. The Secretary further stated that he had contacted the vendor who had assured him that there was little likelihood of a horse meat shortage for the balance of the year, and that it was his intention to reopen the contract for substitution of a higher price. The vendor further stated that at the conclusion of the negotiations it was his plan to keep a 60 day emergency supply on hand at all times. On motion of Commissioner Sandy, seconded by Commissioner Lermen, the Superintendent was instructed to submit the amount of the increased cost that would be brought about by the reopening of the meat contract to the Secretary to be incorporated in a supplemental budget request for the next fiscal year.

Superintendent's
Salary:

The Secretary then presented the following:

Communication from W. L. Henderson, Personnel Director, Civil Service Commission, regarding Resolution No. 725 setting Superintendent J. L. Girod's salary at \$650.00 per month, effective February 1, 1943. Ordered filed.

Oil Company:

The Board next considered a communication from Mr. Joseph J. Phillips, Director of Property, City and County of San Francisco, enclosing a proposed resolution for approval of the Park Commission and for subsequent adoption by the Board of Supervisors. The resolution directs the Mayor and the Clerk of the Board of Supervisors to execute an agreement for and on behalf of the City and County of San Francisco with the Seaboard Oil Company granting an extension of time until April 4, 1944, to commence the drilling of a second oil well on the property acquired from the Fuhrman Bequest, and located in Kern County, California, in consideration of the payment of the sum of \$1000.00. The extension is to be subject to all the terms, covenants and conditions contained in that certain lease dated November 5, 1941, and recorded in Book 1067, at Page 53, Official Records of Kern County, California, except as modified by the agreement hereby authorized. On motion of Commissioner Lermen, seconded by Commissioner Budde, and unanimously carried, the Secretary was instructed to approve the resolution for and on behalf of the Park Commission.

S. F. Zoo - Horse
Meat Situation:

President Fleishhacker reported a communication had been received from W. C. Hubner, Purchaser of Supplies, notifying the Superintendent of Parks that the Western California Products Company had cancelled their contract to supply the Park Department with horse meat for the animals in the Zoo, in accordance with the following provision of the contract:

***"Because of present uncertain conditions and the difficulty of obtaining horses due to shortage of animals and trucking facilities to transport these live animals to our plant,

"It is hereby stipulated that we shall be held to the contract only so long as we are able to receive a supply of live horses." * * *

Mr. Hubner further stated that within the next few weeks it was his intention to readvertise for bids in an attempt to enter into a new contract for the supplying of horse meat, but that he was by no means certain that anyone would be willing to enter into a contract of this type, particularly if a condition was made part of the contract by which the contractor would be held liable in the event of a failure to make delivery. Mr. Hubner also stated that horse meat is currently being sold in San Francisco for use as animal food at prices in the neighborhood of 20¢ per pound, and that it seemed certain that if a contract were entered into the figure per pound would be at least double the 5.85¢ per pound we have been paying under the contract cancelled by the Western California Products Company. It was the concensus of opinion of the Board that every effort should be made to cooperate with the Purchaser of Supplies in locating a contractor who would be able to supply the necessary horse meat and willing to enter into a contract at a reasonable price. On motion of Commissioner Sandy, seconded by Commissioner Lermen, and unanimously carried, the matter was referred to the members of the Park Commission as a committee of the whole.

Alta Plaza Sq.-
Use of Portion
by Amer. Red
Cross for Grow-
ing of Camou-
flage Materials:

President Fleishhacker then presented a communication from Mrs. Helene B. Roe, 1201 California Street, San Francisco, representing the American Red Cross, and requesting that a small area in Alta Plaza Park be set aside for the use of the American Red Cross for the purpose of growing camouflage materials for the Army and Navy. Attached to Mrs. Roe's communication were letters from the Army and Navy and the Office of Civilian Defense sponsoring this work, and indicating their approval of the project. On motion of Commissioner Lermen, seconded by Commissioner Budde, and unanimously carried, the Secretary was instructed to inform Mrs. Roe and the American Red Cross that the request was granted.

Sharp Park - U.S.
Engineers Request
to make 3" Pipe
Connection to
Water System:

Commissioner Lermen reported that he had made a thorough investigation of the request of the United States Coast Guard to permit the United States Engineers to install a 3" pipe connection to our Sharp Park Water System, and was of the opinion that the action of the Board denying this request was unwise and should be rescinded. On motion of Commissioner Budde, seconded by Commissioner Sandy, and unanimously carried, the action of the Park Commission taken February 25, 1943, denying the request of the United States Coast Guard to use the Sharp Park water facilities was rescinded. Commissioner Lermen then requested that action be taken permitting the United States Engineers Department to install a 3" pipe connection to the Sharp Park Water System in accordance with the request of the United States Coast Guard. On motion of Commissioner Budde,

seconded by Commissioner Sandy, and unanimously carried, permission was granted.

Fuhrman Estate-
City Atty's
Opinion re Duties
of Library Comm.
& Park Comm. as
to Assets of
Fuhrman Estate:

Commissioner Lermen then presented the following opinion of the City Attorney concerning the duties of the Library Commission and the Park Commission, as joint trustees, with regard to the assets of the Fuhrman Estate, and requested the opinion be incorporated in the minutes. So ordered.

"

March 18 1943

"SUBJECT: Duty of Library Commission and
Park Commission, with Regard to
Assets of Fuhrman Estate.

"Gentlemen:

" This office is in receipt of your request for an opinion as follows:

"

REQUEST

" At its meeting held on November 17, 1942, the Library Commission decided to invest any surplus cash in the Fuhrman Bequest for the purchase of United States War Bonds.

" Subsequently, Mr. Harold J. Boyd, City Controller, was requested to inform the Library Commission of the exact status of the Fuhrman Fund, and whether the Controller would approve the investment in United States War Bonds.

" The Controller's answer of December 21, 1942, and the analysis of the Fuhrman Estate, copies of which are herewith attached, was presented to the Commission for consideration. A memorandum analyzing Mr. Boyd's letter was presented by the Finance Committee and it was recommended by the Committee that this memorandum be referred to the City Attorney for an opinion on the points discussed therein.

" The memorandum is as follows:

' In re: Alfred Fuhrman Bequest

'On December 21, 1942, Harold J. Boyd, Controller of the City and County of San Francisco, advised Robert Rea, the Librarian, that he approved of the investment in U.S. War Bonds proposed in Mr. Rea's request of December 2, 1942 upon two conditions:

1. That the bonds bought would mature in not more than ten years; and

2. That the amount of such bonds so invested will not preclude the carrying out of the terms of the trust.

"Under date of May 1, 1942, the City Attorney rendered to the Library Commission an opinion in respect of certain specific questions that were submitted to the City Attorney suggested by the bequest made in the will of Alfred Fuhrman, deceased.

"Under Section 82 of the Charter, it is specifically provided that:

'Funds received by donation, bequest or legacy for a specific purpose and held in trust for the benefit of the city and county may, with the approval of the controller, be invested by the officer, board or commission charged with control and administration of such trust or funds in securities legal for savings banks.'

"Under the foregoing provision of the Charter and in the light of the previous opinion rendered by the City Attorney, it would appear obvious that the Library Commission may 'with the approval of the Controller' invest trust assets.

"However, the Controller raises the question as to whether the funds to be invested in United States War Bonds will not 'preclude the carrying out of the terms of the trust.'

"Under the terms of the trust, it is obligatory to use the funds made available to the Library Commission 'for the acquisition of additional books on economic and political subjects.'

"Since it now appears that in the judgment of the Library Commission, the funds now available cannot be wisely applied to the purchase or acquisition of additional books on economic and political subjects, it is the desire of the Commission to defer the acquisition of books of said character until the book market makes such acquisition wisely proper and pending the acquisition of such books to invest the funds in United States War Bonds.

"It seems to me that the Commission should request an opinion of the City Attorney whether or not in the exercise of their discretion they make the proposed investment out of liquid funds, pending the ultimate application of these funds to the acquisition of the character of books prescribed under the will.

"It is also suggested that the City Attorney undertake to clarify the answer to question five as set forth in his opinion of May 1, 1942. While in the opening sentences of this paragraph devoted to this answer, he indicates that the Library Commission and the Park Commission might act either jointly or separately, nevertheless, in the concluding sentences of the same paragraph, there seems to be a neutralization of the opinion expressed in the earlier sentences.

"Under Resolution No. 2331, adopted by the Board of Supervisors, it was resolved that 'the Library Commission and the Park Commission shall act as trustees' etc. There is no indication in the resolution that the two Commissions could act either jointly or separately, nor is there any indication that they might act separately with respect to the custody, control, management, investments or sale of trust assets, and the only implication of separate conduct, in which each Commission might engage, rests upon the provision of the resolution which charges the two Commissions to administer, execute and perform terms and conditions of the will. It is of course obvious that with respect to the acquisition of books, the Library Commission must act separately from the Park Commission, and with respect to the adornment of Golden Gate Park, the Park Commission must act separately from the Library Commission.

"It is therefore important for the City Attorney to indicate whether, in all other matters arising out of the management and administration of the trust, it is incumbent upon the two Commissions to act either jointly or separately, or whether they must act jointly.

"The reason why clarification upon this point would appear to be desirable arises out of the proposal to make the investment under consideration. If the right to make investments must be exercised jointly, then the proposed investment in United States War Bonds, before the actual application of the funds to the acquisition of books, may be regarded as an investment by both Commissions rather than by the Library Commission alone.

"The City Attorney should likewise be requested to render an opinion to the Commission as to who, if anyone, will be liable for any loss that may be occasioned in the event that the investment is made in United States War Bonds.

" O P I N I O N

" From your request for an opinion it is apparent that you have presented three questions for determination. I shall undertake to answer each separately.

"ANSWER TO QUESTION 1.

" Section 2261 of the Civil Code provides that a trustee must invest money received by him under the trust, as fast as he collects a sufficient amount, in such manner as to afford reasonable security and interest for the same.

" Section 2262 of the Civil Code provides that if a trustee omits to invest the trust moneys according to Section 2261 of the Civil Code, he must pay simple interest thereon, if such omission is negligent merely, and compound interest if it is wilful.

" In view of these Civil Code sections it is quite

apparent that it is the duty of a trustee to immediately invest all funds possible. It is apparent from your request for an opinion that in your judgment the funds now available cannot now be wisely applied to the purchase or acquisition of additional books on economic and political subjects. If such is the conclusion of the Library Commission it would seem to me that there would be no discretion with regard to whether the trust funds should be invested. Such funds must be immediately invested so that they, with their increment, may be later used to carry out the terms of the trust with regard to the purchase and acquisition of the books in question.

" If these moneys were not invested, the position of the trustees would certainly be precarious, in view of the conclusion that the available funds cannot now be wisely applied to the purchase and acquisition of the books.

"IN ANSWER TO QUESTION 2.

" This question has to do with the proposition of whether the Library Commission or the Park Commission should make the investment.

" You will note that the decree of distribution provides that distribution is made to the City and County of the residue and remainder of the estate to be used and expended as follows: One-half for the acquisition of additional books on economic and political subjects and one-half for the further adornment of Golden Gate Park. Distribution is not made to either the Library Commission or the Park Commission. Under Resolution No. 2331 of the Board of Supervisors the bequest was accepted, and both the Library Commission and the Park Commission were designated to act for and on behalf of the City and County of San Francisco.

" Under the circumstances it would appear to me that any investments made before the actual application of the funds for either the acquisition of books or the further adornment of Golden Gate Park, must be made by the two commissions. However, they may act independently of each other, so long as they agree with respect to a final conclusion. For example, the Library Commission may decide that available funds shall be invested in a United States War Bond of a specific denomination. The Park Commission may do likewise. Each may be acting independently of the other, but the result would be the determination of both commissions. Under these circumstances, of necessity, the investment would be by both commissions.

" Therefore, with respect to the management and investment of trust funds and assets prior to utilization by the Library and Park Commissions, it is incumbent upon the two commissions to act in unison, either jointly or separately.

" Should it become desirable at any time in the future for the two commissions to separately administer the assets which will be ultimately utilized by them individually, the resolution aforesaid may be amended by the Board of Supervisors to so provide. In the event that the commissions should desire to be removed as trustees and replaced by the Board of Supervisors, so that they will no longer have to administer the assets, this may be accomplished by an appropriate resolution of the Board of Supervisors, pursuant to the provisions of subdivision(d) Section 19 of the Charter.

" ANSWER TO QUESTION 3.

" Section 2259 of the Civil Code provides that a trustee must use at least ordinary care and diligence in the execution of his trust. If an investment were now to be made in United States War Bonds I cannot perceive how ordinary care and diligence would be lacking in the execution of the trust.

" It is, therefore, my opinion that if there were any loss occasioned in the event that the investment were made in United States War Bonds, liability for such loss would not fall upon the trustees.

The Secretary was instructed to inform Mrs. Magee that her suggestion would be given due consideration, and the communication was ordered filed.

S.F. Zoo -
Horse Meat
Situation:

President Fleishhacker reported that he had made further investigation into the horse meat situation for the animals at the S. F. Zoological Gardens and his investigation disclosed that it was the intention of the Purchaser of Supplies and the Controller to attempt to hold the Western California Products Company to its contract to provide this commodity, but that he was fearful of the possibility that the animals at the Zoo might suffer during the time this subject was under controversy inasmuch as the contractor had indicated that his available supply of horse meat would be exhausted on April 14, 1943. On motion duly made, seconded and unanimously carried, the Secretary was instructed to inform the Purchaser of Supplies that the Park Commission had caused the proper requisition for horse meat to be prepared and forwarded to his office and that the Park Commission would expect an uninterrupted supply of horse meat to be provided by his department.

"Gentlemen:

" Now that the hustle and bustle attendant to Madame Chiang Kai-shek's visit to San Francisco has subsided, I wish you to know that during her stay I had numerous opportunities to chat with her and each time she praised most lavishly the beautiful decorations in the Mayor's office and on the balcony of the City Hall on the occasion of the formal reception in her honor.

" I cannot find words to adequately express my gratitude for the splendid work done by the men of the Park Department, particularly for the magnificent planning of Superintendent Julius Girod and the other members of his staff.

" In addition, I cannot help but mention once again the continuing and splendid work being done by Miss Sydney Stein, not only on this occasion, but who makes it possible for visitors to my office to have the opportunity of viewing the beauties of nature created in Golden Gate Park all year long.

" Yours sincerely,

"The designs, models, drawings or photographs of all works of art (defined in Section 46, City Charter) shall not be considered an official submission to the Art Commission for their approval or disapproval until officially accepted by the designated department of the municipality of the City and County of San Francisco under whose jurisdiction the said work of art is to be placed."

Mr. Dyer further stated that inasmuch as the Park Commission had not indicated its acceptance of the subject monument, it would be improper for the Art Commission to act upon the request. On motion of Commissioner Lermen, seconded by Commissioner Sandy, and unanimously carried, the matter was put over until the next meeting, and the Secretary instructed to obtain a photograph of the monument for inspection by the Park Commissioners.

Johnson was a most responsible bidder, the bid of \$350.00 was accepted and the work was proceeding; that it was his expectation that the temple would be in its new location within the week. Commissioner Sandy stated that Mr. Johnson had bid on this project as a personal favor to him and that the Park Department was most fortunate in obtaining his services at this particular time. On motion of Commissioner Lermen, seconded by Commissioner Budde, and unanimously carried, the Secretary was instructed to write Mr. Johnson and to extend to him the thanks of the Park Commission for his courtesy in this matter.

"HONORABLE BOARD OF PARK COMMISSIONERS,

"Dear Sirs:

" You have presented to me a letter written to your Secretary by the Fidelity & Casualty Company of New York relative to bonds issued for the Faithful Performance of a contract between the Park Commission and Ernest J. Rogers & Son. You state that while this contract was actually executed it never became effective for the reason that the award was not made within the time provided for in the Contractual Procedure Ordinance and that no work was ever done under the contract.

" The Fidelity and Casualty Company now asks that they be formally released of any liability under the bonds. As long as no work was performed under the contract there is no objection to your releasing the Fidelity and Casualty Company from any liability under the bonds and, if you desire, returning the bonds to the company. Your Commission can pass a resolution setting forth the facts and releasing the surety from all liability under the bonds.

deceased:

The Secretary presented a communication from the Honorable John F. Shelley, State Senator, 14th Senatorial District, enclosing the following Senate Resolution, adopted by the Senate of the State of California, in its 55th Session, in memoriam to John McLaren, late Superintendent of Parks:

" SENATE RESOLUTION

" Relative to the death of John McLaren

" The following resolution was offered by Senator John F. Shelley of the Fourteenth Senatorial District

" Today the City of San Francisco pays tribute to JOHN McLAREN. For many years the city has every spring set aside a day for honoring him. On those occasions, in the beautiful parks created by him, across the green lawns and among the flowers which out of his knowledge and his love of them he made to grow from shifting sands, children joined in pageantry to pay joyful and loving tribute to 'Uncle John,' while in the press and wherever people met together was told again the story of the young Scot who brought to San Francisco his youth, his art, and a great vision, and of how nothing could daunt him through the more than 60 years in which he made that vision a reality.

" The man was no less miraculous than his works, and at the age of 96 JOHN McLAREN'S works were manifold. Throughout the city stretches the great park and playground system. There is the memory of the magnificently beautiful Panama-Pacific International Exposition, un-

forgettable after almost 30 years. There is the matchless Golden Gate Park. His great genius won for him innumerable honors, including the George Robert White Medal, presented by the Massachusetts Horticultural Society. He was made an Associate of Honor of the Royal Horticultural Society of London. One of the fine parks of the city bears his name.

" To the home the people of San Francisco built for him in Golden Gate Park, death came on January 12th. Today, not in the parks and playgrounds, but in its great city hall where his body lies in state, San Francisco pays a final tribute to JOHN McLAREN; therefore, be it

" RESOLVED by the Senate of the State of California, That when this Senate does this day adjourn, it do so out of respect to the memory of, and as its tribute to, JOHN McLAREN; and be it further

" RESOLVED, That the Secretary be and he is hereby instructed to have suitably engrossed copies of this resolution forwarded to members of the family of JOHN McLAREN.

" IN SENATE.

" FRIDAY, JANUARY 15, 1943.

" RESOLUTION READ, AND UNANIMOUSLY ADOPTED BY A RISING VOTE.

" Signed:

" FREDERICK F. HOUSER
President of the Senate

" Attest:

" J. A. BEEK
Secretary of the Senate "

The Secretary was instructed to thank Senator Shelley.

G.G. Park - Use of Stables by Mounted Auxiliary Police:

The Superintendent of Parks reported that the stables at the 41st Avenue entrance of Golden Gate Park, the use of which has been requested by the San Francisco Auxiliary Mounted Police, were at present occupied by horses owned by private individuals in conjunction with polo activities conducted in Golden Gate Park Stadium. Mr. Girod further reported that his investigations had disclosed that in all probability the army would vacate the stables located at the Golden Gate Park Stadium, which they are now occupying, in the near future, which would result in providing adequate stable facilities for both the polo players and the Auxiliary Mounted Police. It was the consensus of opinion of the Board that it might be several months before the army could move its installation from the Golden Gate Park Stadium stables, and that as a consequence they would not be available prior to the end of the year, and that the requirements of the Auxiliary Mounted Police could not be postponed for so long a time. The Secretary was instructed to prepare

the following resolution requesting the removal of polo ponies from the stables near the 41st Avenue entrance of Golden Gate Park:

Res. No. 798 -
Notice to Vacate-
G.G. Park Polo
Grounds:

RESOLUTION NO. 798

RESOLVED unanimously by the Board of Park Commissioners that in view of the necessity of providing adequate facilities for the San Francisco Auxiliary Mounted Police, as requested by Deputy Chief of Police, Michael Riordan, that the stables located near the 41st Avenue entrance of Golden Gate Park be and are hereby ordered to be vacated and made available to the San Francisco Auxiliary Mounted Police not later than July 15th, 1943.

On motion of Commissioner Budde, seconded by Commissioner Lermen, and unanimously carried, the above resolution was adopted.

Strawberry Hill -

cations:

The Superintendent then requested that his report on the plans and specifications for Strawberry Hill be put over to a later meeting to permit further study. So ordered.

McLaren Rhododendron Dell Project:

Mr. Girod further reported that every effort was being made to continue the McLaren Rhododendron Dell project and requested permission to rent a tractor, at a rental of \$600.00, to further this project. On motion of Commissioner Lermen, seconded by Commissioner Budde, and unanimously carried, the following resolution was adopted:

The Superintendent stated that all plans had been carefully made and that he expected the show to be successful.

G.G. Park Stadium-
S.F. Night Club
Owners' Second
Annual Handicap
at:

Mr. Joseph R. Hickey, Director of Recreational Activities, reported that his investigation of the request of the Night Club Owners of San Francisco to hold the Second Annual Handicap in the Golden Gate Park Stadium, had disclosed that the promoters of this event were conversant with the necessity of providing adequate safeguards for the persons participating in the show and were agreeable to presenting their program of events to the Park Commission for approval. He further stated that under those circumstances he recommended permission be granted for the staging of this event. On motion of Commissioner Budde, seconded by Commissioner Mobbs, and unanimously approved, the request was granted with the proviso that the schedule of events be approved by the Park Commission and that the Night Club Owners of San Francisco provide the Park Commission with adequate public liability insurance covering the participants in and spectators of this event.

Damage Claims -
Frederick W.
Beckh:

The Secretary presented a communication from Frederick W. Beckh regarding his claim for damages against the City and County of San Francisco arising from the clogging of the sewage facilities by a tree located in front of his property at 273-75 Dolores Street. Discussion developed the fact that the trees fronting the homes on Dolores Street were not property under the jurisdiction of the Park Commission, but had been maintained in some degree by the Park Department over the past several years. The Superintendent stated that he had requested an opinion of the City

Attorney in regard to the responsibility, if any, of the Park Commission. The Secretary was instructed to inform Mr. Beckh that his claim for damages had been referred to the City Attorney for opinion.

McLaren Park -

of:

The Secretary next presented a communication from Mr. Joseph J. Phillips, Director of Property, City and County of San Francisco, stating that it was his understanding that it was the Park Commission's policy that Cambridge Street would be the easterly boundary of McLaren Park, and requesting advice as to whether or not this policy had been modified by the Park Commission. On motion of Commissioner Lermen, seconded by Commissioner Budde, and unanimously carried, the Superintendent of Parks and the Secretary were instructed to make a study of the purchases and sales of property in connection with McLaren Park, and the Secretary was further instructed to check the minute record of the Commission to determine if such a policy referred to by Mr. Phillips had been adopted by the Commission.

CHAPTER I

THE first thing I noticed when I stepped out of the train was the cold. It was a sharp, biting cold that seemed to penetrate to the bone. I shivered as I walked towards the station entrance, my hands tucked into my pockets. The air was thick with the smell of coal smoke and the sound of distant whistles. I felt a sense of unease, as if I had entered a strange, unfamiliar world. The people around me were dressed in heavy coats and hats, their faces pale and weary. I looked down at my own clothes, feeling a little out of place. The station was a vast, open space with high ceilings and large windows. The light from the windows was dim, and the overall atmosphere was one of gloom and despair.

As I walked through the station, I noticed a group of men standing near the entrance. They were looking at each other with expressions of concern and confusion. One of them, a man with a beard and a long coat, stepped forward and spoke to me. His voice was hoarse and his words were difficult to hear. I listened intently, but he seemed to be speaking in a language I did not understand. I felt a sense of isolation and helplessness. The men around me were all looking at me, but none of them seemed to be offering any help. I felt a sense of despair and a desire to escape. I turned around and walked away from the station, my hands still in my pockets. The cold was still there, and the atmosphere was still the same. I felt a sense of hopelessness and a desire to find a way out of this place.

I walked for a long time, my feet numb from the cold. I felt a sense of despair and a desire to find a way out of this place. "Gentlemen:

" Nowhere in this county could we have found a more beautiful spot for The Chronicle's Victory Garden Fair of last Sunday than Golden Gate Park. The situation was ideal and, on behalf of this newspaper, I wish to thank you for permitting us to make use of it.

" But more than that I wish to thank you for the splendid cooperation given the Fair by the Park Department employes and, most particularly, the park superintendent, Julius L. Girod.

" Besides being an expert in his field of horticulture, we have very definitely found that Mr. Girod is a talented showman. His assistance with the plans for the Fair and his work in helping to carry them out contributed very largely

to the Fair's great success.

" We feel that with your aid, we have made some contribution to the spirit of producing food for home consumption.

"

Very sincerely yours,

Fuhrman Be-
quest - City
Attorney's
Opinion:

The Board next considered the following opinion from John J. O'Toole, City Attorney, concerning the use of moneys from the Fuhrman Bequest:

"August 19, 1943.

"HONORABLE BOARD OF PARK COMMISSIONERS,
Park Lodge, Golden Gate Park,
San Francisco, California.

"Dear Sirs:

"You have requested that I advise you as to the purposes for which the bequest in the Alfred Fuhrman Estate may be used by the Board of Park Commissioners.

"The terms of the bequest are found in the will of Mr. Fuhrman and are embodied in the Decree of Final Distribution made by the Superior Court of the City and County of San Francisco on the 15th day of December, 1941. The bequest to the city reads as follows:

"To the CITY AND COUNTY OF SAN FRANCISCO is distributed all of the rest, residue and remainder of the estate of said Alfred Fuhrman, deceased, to be used and expended in the following proportions and for the following purposes, to-wit:

"One-half of said rest and residue to The San Francisco Public Library for the acquisition of additional books on economic and political subjects, and the remaining one-half of said rest and residue for the further adornment of Golden Gate Park, as may be determined by the Park Commissioners of said City and County." (Emphasis not included in the will.)

"The language in the bequest to the Park Commission is extremely broad and it would appear to me that it vests in the Board of Park Commissioners an absolute discretion as to how the income, or even the corpus of the bequest should be utilized. If the Board of Park Commissioners should determine that any particular project was for the adornment of Golden Gate Park the courts would uphold the exercise of their discretion except in the case of an absolute abuse of that discretion.

"I understand that it is the desire of the Board of Park Commissioners to utilize the Fuhrman funds, or some portion thereof, for the rehabilitation, adornment and improvement of Strawberry Hill. If, in the judgment of the Board of Park Commissioners, this will be for the adornment of Golden Gate Park (which I think it will be) you are advised that, in my opinion, it is a proper exercise of the discretion vested in the Board of Park Commissioners that the funds of the Fuhrman Estate, including the corpus, may be used for that purpose."

"Very truly yours,

"Jno. J. O'Toole (signed)

"City Attorney."

"Heretofore, we were advised that the Public Utilities Department was considering a renewal for one year of a contract to furnish water to the Concentration Camp conducted by the Immigration Department of the United States at Sharp Park. The matter was referred to me.

"I finally succeeded in having a conversation over the telephone with Mr. Edward Cahill. I told Mr. Cahill that with the very first attempt by the State Government to obtain permission from the Park Commissioners to occupy a portion of Sharp Park for the housing of persons on relief, down to the present time, including any application by any agency of the United States to occupy a portion of Sharp Park, this Commission had consistently refused to grant any formal permission for any such occupation, but that we realized that if the Park Commission opposed any such proposed occupation, the State Government, and, also the United States Government, would have the right to condemn the property and obtain possession, as well as the title, to such portion of the property as they needed; that, therefore, and because confronted by a greater authority that could condemn and take from the Commission the title, as well as the possession of the property, our Commission had made no attempt to prevent the State or the Federal Government from occupying a portion of the property, it being verbally understood between this Commission and the State and Federal Governments, that the occupation would be only for the duration of the present war and emergency.

"I told Mr. Cahill that I was not trying to tell him what he should or should not do, but rather what this Commission had been doing to protect our rights in Sharp Park as much as we could, in view of the fact that Mrs. Sharp, in granting the property to the City, specifically provided that it should be used for park purposes only; that therefore we refused to become a party to any express agreement turning over to the State or the Federal Government possession of any part of Sharp Park.

"Respectfully submitted,

"J. J. Lermen (signed)

Res. No. 836 Work Order for Management & Leasing Fuhrman Properties:

Commissioner Lermen presented the following communication from the City Attorney concerning the payment of a work order for \$500.00 in favor of the Real Estate Department, covering the management and leasing of certain Fuhrman properties

"San Francisco, California
"August 19, 1943

"Mr. John J. Lermen,
Balboa Building,
San Francisco, Calif.

"Dear John:

"Some time ago you asked me to look into the question of the compensation of the Real Estate Department for services rendered in the matter of negotiations of the lease of the Fuhrman property with the Bishop Oil Company and for other incidental work performed by the Real Estate Department which took care of the properties before this lease was negotiated and which led to the execution of the lease.

"I have had several conferences with the representatives of the Real Estate Department relative to what would be a reasonable charge for the services which they have rendered in negotiating this lease and doing the preliminary work prior to the entering into of the lease. I believe it would be better for you to get this information first-hand from Mr. Riordan of the Real Estate Department. There seems to be no very clear provision in the Municipal Code for services such as those rendered by the Real Estate Department in this matter. Sections 150, 151 and 152 of Part I of the Municipal Code do deal with compensation for negotiating leases and collecting rents but when these particular sections were added to the Municipal Code nobody had in mind the character of the work which the Real Estate Department undertook and carried out in negotiating this lease

"and in handling the matter from the date of the distribution of the Fuhrman Estate up to the effective date of the lease, and I do not think that the Real Estate Department should be limited to the cold statements contained in the ordinance when such circumstances and conditions as pertained in this matter were not in the minds of the members of the Board of Supervisors when the ordinance was enacted.

"I think, therefore, that you should sit down with some representative of the Real Estate Department, preferably Mr. Phillips or Mr. Riordan, and permit him to advise you as to the character of the work performed by the Department. When you are fully advised on this particular point you will agree, I am sure, that the compensation requested is not out of line.

"The next question, in which I know you are interested, is whether the payment of this compensation whatever it may be is a proper charge against the funds of the Fuhrman Estate. There is no question in my mind but that it is. It is an expense of the administration of the trust and I think it is a principle of law which you will not dispute that any reasonable expense incident to the administration of a trust may be charged against it. Certainly, the city would not want to accept a trust and pay for its administration out of tax funds for the reason that the bequest might prove a burden rather than a benefit.

"As I said above, it would be an idle act for me to rehearse to you the work that I know the Real Estate Department has performed in this matter. Some comment has been made that the City Attorney has already been paid for much of this work. The City Attorney is not making any charge in this matter and this case is handled as are all other cases which the Real Estate Department handles for the various departments. That Department makes the negotiations, prepares the necessary documents leading to the culmination of those negotiations and then submits the matter to the City Attorney for his approval or disapproval or comment and finally an agreement is reached and is executed.

"Therefore, will you be good enough to discuss this matter with either Mr. Riordan or Mr. Phillips and I am sure when you realize all the work that has been performed you will agree that the requested compensation is not out of line.

"Very truly yours,

Mr. Lermen then stated that he was informed by the Secretary that subsequent discussion with Mr. Riordan and Mr. O'Toole, together with investigation of the various items making up the work order indicated that a charge of \$500.00 for such services was reasonable and justified. On motion duly made and seconded, and unanimously carried, the following resolution was adopted:

RESOLUTION NO. 836

RESOLVED unanimously by the Board of Park Commissioners that an expenditure from the Fuhrman Bequest Fund of not to exceed Five Hundred and 00/100 (\$500.00) be authorized to cover the cost of the services and expenses of the Real Estate Department in connection with the leasing of oil lands obtained from the Fuhrman Bequest.

Offer of Bond to
Indemnify Park
Commission by
Leonard Coates
Nurseries:

The Secretary next reported that he had discussed with the City Attorney the offer of the Leonard Coates Nurseries, Incorporated, to provide the Park Commission with a bond for \$5,000.00 for one year to indemnify the Park Department for any injury done to the roof of the Union Square Garage due to the use of heavy equipment by a subcontractor of the Leonard Coates Nurseries, Incorporated, in the installation of certain landscaping. It was the opinion of the City Attorney that, inasmuch as the final payment on this contract had been withheld for at least one year after completion of the work, and the bond offered by the Leonard Coates Nurseries, Inc. would protect the Park Department for still another year, which would give ample time to determine whether or not damage traceable to the use of the abovementioned heavy equipment had occurred, the offer of said bond should be accepted and the

final payment made to the nursery company. On motion duly made and seconded and unanimously carried, the Secretary was instructed to release the final payment on the contract and to accept a bond approved by the City Attorney, indemnifying the Park Commission for one year.

" Dear Mr. Fleishhacker:

" We were very much gratified to receive your letter assuring us that the first concern of the Park Commissioners is 'the pleasure and relaxation afforded the citizens of San Francisco' and 'that their last thought would be to commercialize our Park System.'

Our letter to you was inspired by various articles in several local newspapers, and we feel that you were wise to send them a copy of your reply, thereby indirectly dealing with such statements as have appeared in print, as well as covering the misinformation which you say has been conveyed by persons not in possession of nor conversant with the actual facts.

" We thank you for the time and attention you have given this matter. As you know, the San Francisco Garden Club has always followed with deep interest the development of our Parks, and we shall always be prepared to support the Park Commissioners in their efforts to provide San Francisco with the finest Park System in the world.

Opinions - City Atty's Opin. re Validity of Sec. 65, Chap. 6, Pt. II, S. F. Munic. Code. re Meetings & Discussions in Public Parks: The Secretary next presented the following opinion of the City Attorney concerning the "Issuance of Permits by the Park Commission for Public Discussions" finding Section 65, Chapter 6, Part II of the San Francisco Municipal Code unconstitutional:

"

November 1, 1943.

"SUBJECT: In re - Validity of Section 65, Chapter
 " 6, Part II, of the San Francisco
 " Municipal Code, preventing Meetings
 " and Discussions in Public Parks.

"Gentlemen:

" You have directed my attention to an ordinance which would repeal Section 85, Chapter 6, Part II, of the San Francisco Municipal Code. This section as it is now written reads as follows:

" 'It shall be unlawful to hold any public meeting, group, collection and/or assemblage of persons, or to hold or engage or participate in any public discussions, or debate, where five (5) or more persons are assembled for that purpose, in or upon any part, square, avenue, grounds or recreation center, without first having obtained a permit to hold said meeting, or group, or collection, or assemblage from the Park Commission, except at such place or places as shall have been designated by the Park Commission for such use.'

" The question you ask is: Is this section as it is now written a valid prohibition against meetings in public parks?

"

OPINION

" This particular matter has received the attention, not only of the Supreme Court of the United States, but also of the District Court of Appeals of the State of California.

" See *HAGUE v. COMMITTEE FOR INDUSTRIAL ORGANIZATION*, decided by the Supreme Court of the United States on June 5, 1939 and reported in 83 Law Ed. at page 496. In this case the court held that an ordinance conferring discretion to refuse a permit for a public meeting upon the public streets, highways or in public parks or public buildings of the city and authorizing the Director of Public Safety, for the purpose of preventing riots, disturbances or disorderly assemblage, to refuse to issue a permit when after investigation of all the facts and circumstances pertinent to the application he believes it proper to refuse to issue a permit, is not a valid exercise of the police power. The court continuing said:

" ' The rights of freedom of speech and of peaceable assembly are protected against infringement by state action by the provisions of the Fourteenth Amendment relating to due process and the privileges and immunities of citizens of the United States.'

" In a very recent case, *JAMISON v. TEXAS*, also decided by the Supreme Court of the United States on March 8, 1945, and reported in 87 Law Ed. at page 630, the court held:

" 'One rightfully on a street which the state has left open to the public carries with him, there as elsewhere, the constitutional right to express his views in an orderly fashion; and this right extends to the communication of ideas by handbills and literature as well as by the spoken word.'

" As I have already said, the courts of our own state have already passed upon this matter.

" See *In Re Anita Whitney*, decided February 16, 1943, and reported in Volume 57, A.C.A. at page 187. This case involved the right of Anita Whitney to hold meetings in the public parks of the city of Sacramento. Sacramento had an enacted ordinance, the pertinent portion of which reads as follows:

" 'Section 1. No person shall in or upon any of the public grounds make any public address, discharge any cannon or firearm, expose for sale any goods, wares or merchandise, direct or maintain any booth, stand or show, except in accordance with the permit from the City Manager.'

"Basing its decision on the *HAGUE v. COMMITTEE FOR INDUSTRIAL ORGANIZATION*, above cited, the court held:

" 'A city ordinance prohibiting the right of public speech in and upon the public grounds, except by special permission, simply because of a stated reason that citizens have been annoyed, is void as denying the right of freedom of speech and assemblage in violation of the Fourteenth Amendment of the United States Constitution and Sections 9 and 10 of Article I of the California Constitution.'

" You are therefore advised that in my opinion Section 85 prohibiting the holding of meetings in public parks, unless with the consent of the Board of Park Commissioners, is void. This, however, does not mean that parks must be thrown open promiscuously for the holding of public meetings. The constitutional provisions would be satisfied if a certain space in a park were set aside for public meetings. Undoubtedly, the Park Commission could adopt reasonable rules which would regulate the use of the spaces set aside for public meetings, provided, of course, that these rules contain no prohibition against the use of the spaces so allotted.

" My advice to you in the matter is to take this matter up with the Board of Park Commissioners and see just what rules or regulations can be worked out providing for the use of space in various parks for general meeting places.

" Respectfully submitted,
 " (Sgd) Jno J. O'Toole

(Comm. Lermen's

Commissioner Lermen then presented the following report:

"

October 19, 1943

"

Memo - Park Commission

"

While Commissioner Budde and the undersigned were investigating the application of the Army for certain work to be done near the north windmill, we inspected also the pumping machinery in the windmill house.

"

This machinery was installed to be operated by the windmill. It has not been used for many years. It is in good condition and there is a possibility that it might be disposed of for use for pumping purposes. If it cannot be sold for that purpose, then it should be disposed of as scrap.

"

In any event, however, neither the north nor the south windmill has been allowed to turn for a long time. We suggest that the driving shaft be disconnected from each of these windmills, so that they may turn with the force of the wind. We think, also, that the wings of the windmills and the under-structure should be painted.

"

Apparently, outside of the cost of painting, there will be no additional cost of making the disconnection of the driving shaft, although there may be some mechanical adjustments requiring the attention

" of someone experienced in such matters. For that reason, we suggest that the Assistant Superintendent, Bart Rolph, be requested to inspect both windmills and submit to Superintendent Girod, and to the Park Commission, his comments upon these suggested changes, the cost of making them and the estimated cost of doing the painting.

" (Sgd) JOHN J. LERMEN
" Commissioner "

Superintendent Girod reported that due to dangerous condition it would be unsafe to use the South Windmill until needed repairs are completed, but that in accordance with Commissioner Lermen's suggestion the North Windmill has been disconnected and is now in operation.

G.G. Park-Miniature
Golf Course:

Commissioner Mobbs reported that a discussion with Mr. Calvin Tilden indicated the advisability of delaying the construction of a miniature golf course in Golden Gate Park until next spring, inasmuch as construction would be difficult during the rainy season and the course would receive very little patronage before the summer months.

G.G. Park-Stow
Lake, Proposed
Boat House and
Conv. Station:

Superintendent Girod presented a sketch for a proposed convenience station and boat house at Stow Lake. After examination of the sketch the plans were ordered held in abeyance pending further study.

**Aquatic Park
Beach and
Rowing Club
Location:**

Mr. Joseph R. Hickey, Director of Recreational Activities, presented the following report concerning Aquatic Park Beach:

"

November 3, 1943

" MEMORANDUM TO MR. HERBERT FLEISHHACKER:

" Subject: Aquatic Park Beach and Rowing Club Location.

"As per your request I have investigated the situation in the vicinity of the rowing clubs located at Aquatic Park Beach particularly relating to the boat landings which have been interfered with by the piling up of the sand at that location. Unquestionably the boat clubs are justified in registering a complaint in this connection as the sand has accumulated because this office did not continue with the development at the west end of the park.

"It is now fairly well established that had the groins originally planned for the west end of the beach been completed it would undoubtedly have minimized the difficulties now prevalent in the boat house area.

"Immediate relief for the boat clubs can only be obtained by an extension of the three landing wharves at the boat clubs at an expense of \$1500. each. I would like to suggest that consideration be given to an arrangement whereby one landing wharf could be so designed to sufficiently take care of all three boat clubs thus reducing the cost considerably.

"Approximately \$6500 would be involved in the construction of the groins originally designed and the plans for which this office paid an engineering fee of some \$1250.

"We are confronted with a situation where immediate relief is requested as against a permanent improvement heretofore considered. It is possible that the two could be combined and I suggest that it be referred to the proper authorities.

"

(Sgd) JOSEPH R. HICKEY

"

The report was ordered filed and Mr. Hickey instructed to prepare additional plans for submission at the next meeting.

**H.F. Pool -
Suggested**

Improvements: suggested improvements for Fleishhacker Swimming Pool:

Mr. Hickey then submitted the following report on

"

November 3, 1943

" MEMORANDUM TO MR. HERBERT FLEISHHACKER:

" Subject: Suggested Improvements for the Pool at the
Fleishhacker Playfield

"May I remind you that an appropriation of \$15,000 was set up in the present budget to be used for improvements at the pool, namely the construction of the so-called sand beach in the center of said pool.

"At the time this was discussed it was generally conceded that this amount would only be sufficient to meet one half of the cost of the proposed development. No proposal was offered to secure the remaining amount of money necessary to carry out this project.

"Since that time I have given considerable thought to the idea and I desire to state that I am not in favor of this plan. There are several other much needed improvements in connection with the pool, many of which are mandatory and it would seem unwise to neglect them.

"May I point out that the entire scum gutter drainage system which takes the daily overflow from the pool is completely out of commission as a result of pipe deterioration and all of this water now finds its way under the promenade walks. These walks in turn are in very bad shape and as much as possible should be replaced.

"The diving tower which is one of the outstanding features of the pool should be either rehabilitated or completely demolished. It is antiquated and in order to be safe must be improved. It is difficult to supervise in its present arrangement and contributes considerably to disorder at the pool.

"Once again I must direct your attention to the unsatisfactory arrangement of the shower units in both the men's and women's section, they should be completely overhauled.

"If the above items are treated as suggested I feel that it will be a better expenditure of the money appropriated than the reconstruction of the center of the swimming pool proper.

"Some extraordinary effort should be made to arrange for the chain link fence around the pool as previously discussed.

"

(SGD) JOSEPH R. HICKEY

"

The report was ordered filed and the Superintendent instructed to prepare cost estimates for the improvements suggested in Mr. Hickey's report.

Damage Claim-
Norine Pater-
son, 571-4th

The Secretary presented a damage claim from Miss Norine Paterson, 571 - 4th Avenue, San Francisco, alleging that while riding her horse in Golden Gate Park she was thrown to the

ground and received injuries due to the animal stepping into a hole on the edge of the road. Superintendent Girod reported that the hole referred to was located in the lawn adjacent to the equestrian path and that the equestrian path, on investigation, proved to be in good condition. The Superintendent pointed out that riding or driving horses on lawn areas is prohibited and therefore Miss Paterson, by her own actions contributed to the accident. On motion of Commissioner Lermen, seconded by Commissioner Budde, and unanimously carried, the Superintendent was instructed to make a full written report of the accident to the City Attorney and to send a copy to the Controller.

Parks & Squares, Misc. Condition of Home Owners Protective Association, complaining of the condition of the center strip on Richardson Avenue:

The Board then considered a communication from the Marina Home Owners Protective Association, complaining of the condition of the center strip on Richardson Avenue approaching Golden Gate Bridge. The Superintendent reported that this area is under the jurisdiction of the Board of Public Works and that the park's contribution to the upkeep of Richardson Avenue is confined to pruning the trees. Postponement
of Major Deci-
sions and
Large Expendi-
tures:

President Fleishhacker stated that it was his personal opinion, in view of the coming change in administration of the City and County of San Francisco that the Board should postpone, as a matter of policy, the expenditure of funds on large projects as well as major decisions for the development of the Park system.

Commissioner Lermen stated that he could conceive of no reason for any concern about any expenditure of funds on large projects, either as a matter of policy or anything else, for the very good reason that there wasn't any money available at this time for the expenditure of funds on large projects not already provided for.

Commissioner Lermen stated further that any major decision for the development of the Park system would, at least, call for such periods of study that necessarily no such decision could be reached until after the 8th of January, 1944.

Balboa Park-
Repair of
Roadway:

President Fleishhacker then requested postponement of his report on the repair of the roadway at Balboa Park. So ordered.

Harding Park
Golf Course-
Water Supply
System:

President Fleishhacker then asked Commissioner Mobbs to report on the progress made in obtaining the supplemental water supply system at Harding Park Golf Course. Commissioner Mobbs reported that together with President Fleishhacker and Superintendent Girod a conference was held with Mr. Eckart of the Water Department, and that as a result of the meeting final plans for the installation of this unit would be presented for consideration of the Board in the near future.

Rolandi Claim-
Proposed Settlement of:

Commissioner Lermen reported that he had investigated the proposed settlement of the Rolandi claim for \$750.00 and in view of the recommendation of the City Attorney moved that the ordinance authorizing compromise of the claim by the Park Commission be approved. The motion was seconded by Commissioner Budde, and unanimously carried.

McLaren Park-
Res.No. 879,
Dept. Work
Order, \$200.00:

Commissioner Lermen then reported that the request of the Director of Property for a work order for \$200.00, in connection with the acquisition of McLaren Park land, was proper and should be approved. On motion of Commissioner Budde, seconded by Commissioner Sandy, and unanimously carried, the following resolution was adopted:

RESOLUTION NO. 879

RESOLVED unanimously by the Board of Park Commissioners that for the proper conduct and best interest of the Park Department the Controller be and is hereby requested to approve the following

\$50.90:

Commissioner Lermen next reported that it would be advisable for the Superintendent to make a full written report concerning the damage claim filed by Mary K. Taylor for \$50.90, for the benefit of the City Attorney. So ordered.

G. G. Park Band-
Cancellation
of Contract:

Commissioner Lermen then presented a communication from City Attorney John J. O'Toole concerning the agreement of employment between Ralph Murray, Director of Golden Gate Park Band, and the Park Commission, covering park concerts. The City Attorney stated that if it was the desire of the Park Commission to increase the compensation of the musicians in the Park band it would be proper to adopt a resolution cancelling the existing agreement of employment, serving fifteen (15) days notice of such termination on Mr. Murray. The Board would then be in a position to enter into a new agreement of employment at the increased rate of compensation. On motion of Commissioner Lermen, seconded by Commissioner Budde, and unanimously carried, the following resolution was adopted:

(Res. No. 873)

RESOLUTION NO. 873

RESOLVED unanimously by the Board of Park Commissioners that for the best interest and

proper conduct of the Park Department the agreement of employment between RALPH MURRAY and the BOARD OF PARK COMMISSIONERS, dated July 1, 1943, be and is hereby terminated as at December 1, 1943, in accordance with Section 2 of said agreement of employment.

BE IT FURTHER RESOLVED that the Secretary of the Park Commission be and is hereby instructed to serve a 15-day written notice of the termination of the agreement of employment on Mr. Ralph Murray, Director, Golden Gate Park Band.

On motion of Commissioner Sandy, seconded by Commissioner Mobbs, and unanimously carried, the preparation of a new agreement of employment covering Park concerts was referred to Commissioners Lermen and Budde for submission at the next meeting.

Jack London Memorial:

Commissioner Lermen further reported that due to the possibility of a change in plans, the selection of a site for the Jack London memorial had been held in abeyance.

G.G. Park - Miniature Golf Course:

Commissioner Mobbs suggested that although the consideration of the construction of a miniature golf course had been postponed until the spring of 1944, it would be advisable to provide Mr. Calvin V. Tilden, of the Tilden Utility Engineering Company, with sketches of the proposed course to permit him to obtain cost estimates of such construction in the interval preceding the Park Commission's reconsideration of this project. The Superintendent was instructed to provide Mr. Tilden with the necessary sketches.

G. G. Park -
Stow Lake
Progress
Report:

Superintendent J. L. Girod presented a communication from Mr. Calvin V. Tilden, Stow Lake Company, reporting the progress of the Stow Lake boating concession for the first four months of operation, namely, July 1st to November 1, 1943.

Mr. Tilden stated that a combination convenience station and boat house immediately adjacent to Stow Lake is very urgently needed and would result in making the boating concession more attractive to the public by permitting the installation of additional equipment of the type that is in greatest demand. President Fleishhacker stated that he favored the construction of such a building, but that care should be exercised to assure that the type of building agreed upon should be appropriate for its surroundings, and suggested that possibly the employment of an outside architect would be proper. President Fleishhacker then appointed Commissioners Lermen and Sandy to make an investigation and study of the project.
